### THE KENTUCKY RIVER.

Steps for a Meeting of Delegates in This City to Memorialize Congress.

The citizens and merchants in particular are awaking to the fact that the small appropriations made by Congress to the Kentucky river will not insure for many years the completion of the work of building the locks and dams to improve the navigation to the headwaters of the river. They have discovered that there is a great waste of both time and money to the Government, which larger appropriations would easily overcome. Though the river has been under the control of the United States Government since 1880, the money which Congress has dribbled out for the improvement since that time has accomplished nothing more than to put the four old locks in good condition and build one new one, practically, in other words, extending the navigation only from this city to High Bridge. The failure to accomplish more is not due in any sense to a want of efficiency on the part of the officers who have charge of the improvements. It is merely the result of the appropriation, which is barely enough to build one lock and dam at a time. If the amounts were increased, the contracts could be let on a larger scale and the necessary timber and stone be gotten out to take advantage of every day in the season that the weather and stage of water will admit of the work. As it is now, much propitious time and good material are absolutely wasted for want of money to keep the work constantly going on. Whilst the citizens realize that great benefits are already secured to them by the improvements made, they know that the ultimate plans of reaching the headwaters, if they can ever be carried out, will open to the counties along the river and to the cities and towns for reasonable distances up and down the Ohio river, a tide of wealth in coal alone, at greatly reduced prices, that cannot be computed in figures. Coal, iron and the finest timber abound in the counties in which this river penetrates and it only requires the building of five or six more locks and dams to enable vessels to go into the Three Forks, at Beattyville, which will carry them forty miles further in the North Fork, to Jackson, in Breathitt county.

With the object in view of memorializing Congress to make large appropriations for this river than in the past, the business men of this city are arranging for a request to the county judges of the counties along the line of the river, both above and below this city, to appoint a number of their citizens as delegates to meet in Frankfort some time during the month of January. Louisville, Madison and Cincinnati, which will derive much advantage from the completion of the improvement of the river, will also be asked to have representatives at the meeting. Action of this nature, presenting the loss of time and money, the mineral resources of the counties to be reached, the great benefits that will flow to a large section of the country by converting the river into a Monongahela, and the interest that the people immediately concerned in the improvement are taking in its speedy completion, it is believed will have the desirable effect upon Congress, and secure such appropriations hereafter as will hasten the work more than a dozen years, a period of itself of immense importance to the development and prosperity of a vast

portion of Eastern Kentucky as well as the commercial advantages of every town and county along the river border.

### A Chance for a Bargain.

Mr. W. H. McMillan, of Paris, offers for sale in another column the farm of his father, the late Robert McMillan, which lies near Hoge's Station, on the L. & N. railroad, three miles from this city. The place is well adapted for a fruit farm, dairy or market garden, and can be had at a bargain by any one desiring such a place. Read Mr. McMillan's advertisement and then write to him at Paris.

### Mr. Sayre's Class of 1849.

The St. Louis Republic has this to say of the school which Prof. B. B. Sayre taught in this city:

#### FAMOUS GRADUATES.

"B. B. Sayre, a pedagogue, teaching a small school at Frankfort, Ky., turned out the most remarkable class in 1849 that ever graduated from a school-room," said John J. Dixon, of San Antonio. "Mr. Justice Harlan, of the United States Supreme Court; Senator George G. Vest, of Missouri; ex-Governor of Missouri, who was nominated for Vice-President on the Greeley ticket in 1872; ex-Governor Thos. T. Crittenden, of Missouri; Vice-President Adlai E. Stevenson, Senator Joe Blackburn, of Kentucky; and John Mason Brown, one of the most prominent lawyers of Louisville, all walked out of the little school-room as graduates. From there they went to Centre College, at Danville, Ky., where they graduated in law and they started out in the world to make their names."

### Bellevue Election.

The election for Board of Trustees, Police Judge and Marshal of the town of Bellevue, took place on Tuesday and the contest was quite spirited, though everything passed off quietly. Following is the result—the first named five trustees are those elected.

### Heart Disease Curable.

The truth of this statement may be doubted by many, but when Dr. Frazee, the eminent Indiana specialist, claims that heart disease is curable and proves it by thousands of testimonials of wonderful cures by his new heart cure, it attracts the attention of the millions suffering with short breath, palpitation, irregular pulse, wind in stomach, pain in side or shoulder, smothering spells, fainting, drowsy, &c. A. F. Davis, Silver Creek, Nebraska, by using four bottles of Dr. Miles' New Heart Cure, was completely cured after twelve years suffering from heart disease. This wonderful remedy is sold by J. W. Gayle. Books free. 5

### THE CITY COUNCIL.

Appointment of a Board of Health and Other Minor Matters.

There was a full attendance at the regular meeting of the city council last Tuesday night.

The resolution to purchase fire hose was, on motion of Mr. Darnell, passed. The Mayor's veto to the contrary notwithstanding, by a vote of eight yeas to one nay.

The license of Barg & Ginsberg was reduced from forty to twenty dollars.

Col. Thomas Rodman, President of the Farmers Bank, appeared and asked that the assessment of the bank property be reduced. He said that it was placed at \$10,000 for 1891 and at \$15,000 for 1892. On motion of Mr. Darnell, the valuation was fixed at \$13,000.

A communication was received from Mayor Tobin stating that he had approved the resolution in regard to paving and curbing, and also that which authorized the payment of the Capital Gas and Electric Light Company's bill.

A petition requesting a reduction of his drug store license was received from Mr. McKee Hardie and referred to a committee.

A motion by Mr. Darnell, that the Gas Committee notify the Gas Company to place ten or twelve incandescent lights on the bridge to the South Side, cut off the two end gas lights and burn the two middle lights after twelve o'clock, was adopted.

Mr. W. W. Alexander, agent for the Louisville and Nashville railroad in this city, notified the council in a letter that he would have the engine house bell tapped exactly at ten o'clock standard time, as received direct from the depot at St. Louis, if the city could arrange its fire alarm box at the depot in a convenient manner. A motion to that effect was adopted.

Mr. Huff moved that a new clause in the city ordinance against carrying concealed weapons be inserted so as to impose an additional penalty of from ten to twenty days imprisonment in the work-house. It was adopted.

A resolution for eight new gas lamps in different parts of the city was lost by a vote of five to four.

City Clerk Payne was allowed \$50 for extra services as Clerk of the Police and Fire Commission during the month of February, 1892.

A motion by Mr. Shaw that a competent person be employed to number all new houses and re-number others from which the numbers had disappeared, the work to be done at the expense of the property owners, was defeated.

Mr. Richardson moved that a Board of Health be selected which shall hold office for a term of two years, which was adopted and the following members chosen, viz: First Ward—J. W. Johnson; Second Ward—Dr. Sam. E. James; Third Ward—Dr. Sam. B. Holmes.

Mr. Mastin moved that the Street Railway Company be notified to place the streets along the line of its route in proper condition. It was adopted.

Sheriff Noel, in person, made a request that the city pay the State and county taxes on Cove Spring property for the last five years while it was in possession of the city. The matter was referred to a committee composed of Messrs. Darnell and Huff and the City Attorney.

The council adjourned to meet again next Tuesday night.

### Nervous Prostration.

A large manufacturer, whose affairs were very much embarrassed, and who was overworked and broken down with nervous exhaustion, went to a celebrated specialist. He was told that the only thing needed was to be relieved of care and worry, and have a change of thought. This doctor was more considerate of his patient's health than of his financial circumstances. He ought to have advised him to use Dr. Miles' Restorative Nerve, the best remedy for nervous prostration, sleeplessness, dizziness, headache, ill effects of spirits, tobacco, coffee, opium, &c. Thousands testify to cures. Books and trial bottles free at J. W. Gayle's. 5

### MR. ALEXANDER

Secures a Promotion From the Louisville & Nashville Railroad.

By reason of the recent shortage of a Louisville & Nashville officer at Cincinnati and the efficient management of the company's business by the agent in this city, Mr. W. W. Alexander, who has been the agent here since Mr. E. P. Bryan received his promotion, has been notified that he will be made the company's agent at Cincinnati, the order appointing him to take effect on and after the first day of January. Mr. Alexander has shown in the discharge of his duties here that he thoroughly understands the direction of railroad affairs and can protect the interests of his company at the same time he increases the road's volume of business and makes friends with the shippers in the city. Of course such a capable and trustworthy man is not always in the employ of the railroads and it was a fit tribute to Mr. Alexander's worth on the part of the Louisville & Nashville road to promote him to the important agency at Cincinnati.

Mr. John Ogden, of Lexington, who was formerly a telegraph operator and bill clerk for the road in this city, will succeed Mr. Alexander as the agent at this point.

Indecent Performances Should not be Allowed in the City.

The ROUNDABOUT does not want to be placed in the attitude of chronic grumbler, who in its own opinion of its ability and morals should be given the duty of regulating the affairs of the whole city, but it believes it voices the sentiment of the best citizens when it states that the permitting of the exhibition of such an aggregation of vulgar, indecent women as in the May Davenport Company, which performed here Wednesday night, was an outrage to good society which cannot be too severely condemned.

Admitting, as some claim, that in the performance there was nothing to which one would reasonably raise more objection than to any other company in which women appear in tight, the conduct of those women in the company who went about the streets of the city handing their advertising bills to the citizens, displayed enough brazen impudence and evil design for prostitutes to disgust the man who entertains the least respect for the womanhood which gave him his mother and sisters.

In justice to Mr. Ed. Gaines, the lessee, it should be stated that the company was booked before he assumed charge of the opera house, and that he endeavored to cancel the engagement, but found it could not be done without the risk of a law suit. However, a line should be drawn and the City Council should take action and define that line by an ordinance.

### WILLIS-STANTON.

The Celebration of the Nuptials of a Well Known Society Couple.

The marriage of Miss Ruth Stanton to Mr. George L. Willis, which had been looked forward to in society circles for some time past, took place at the Methodist Church Wednesday evening at seven o'clock. The church was crowded to its utmost capacity, and handsomely decorated with roses, cedar and mistletoe. Professor Wayland Graham presided at the organ and at the appointed time sounded the wedding march, when the bridal party entered the church in the following order:

The bride and attendants preceded by Mr. Frank Halloran, by the right aisle, and the groom and attendants by the left aisle. Following Mr. Halloran were Misses Rose Bryan, a cousin of the groom, of Jefferson county, and Miss Evelyn Brown, of this city; May Stone, of Louisville, and Carrie Holt and Kate Halloran and Rose Crittenden. Then came the first bridesmaid, Miss Minnie Van Derveer, who walked alone and in front of the bride, who was accompanied by her sister, Miss Florence Stanton, the maid of honor.

Mr. Sam E. Blackburn preceded in the left aisle and was followed by Mr. Edward L. Stanton, the bride's brother, and Mr. T. F. Poynter, of Shelbyville; Hon. George H. Alexander, of Louisville, and Lieut. Gov. Mitchell Alford, of Lexington; Mr. Vernon L. Clark, of this city, and Hon. A. J. Carroll, of Louisville. Mr. Oliver J. Cromwell, of Louisville, as the first groomsmen, followed alone, and the groom and his best man, Mr. Harris Johnston, of Superior, Wisconsin, closed the procession. At the altar, which was beautifully lighted with waxen tapers, the party took positions in a semi-circle surrounding the contracting couple, who were standing with their faces to the audience.

Rev. W. Scott Willis, of Bourbon county, a brother of the groom, performed the ceremony, and in reverse order to their entry the procession left the church and repaired to the home of the bride's parents, where the bridal party and a few relatives and friends were served an elegant supper. The ushers, besides Mr. Halloran and Mr. Blackburn, were Mr. John M. Rodmad and Mr. Stoddard Johnston, Jr., of Louisville. The bride wore a white satin gown, trimmed with duchess lace. She carried a bouquet of lilies of the valley, sweet violets and hyacinths and had her veil looped with a beautiful diamond pin, the gift of the groom.

The maid of honor wore a light blue canton crepe and carried a bouquet of American beauties. The first bridesmaid's gown was a corn color China silk. She carried yellow roses. The rest of the lady attendants wore white silk and carried pink roses. After supper the happy couple took their departure for a trip to Washington and New York. They intend to return the latter part of next week and occupy rooms at the residence of Capt. John W. Headley and take their meals at the home of the bride's parents. Mr. Willis is well known here, having been the correspondent of the Courier-Journal and Times in this city since the Constitutional Convention first met, and his bride, the young and beautiful daughter of Ma-

jor Henry T. Stanton, is a favorite in society, who will carry with her the best wishes of a large circle of admiring friends.

### Corner Chat.

A member of the Legislature, looking on at the large crowd of people in the city on county court day and the sales of almost every conceivable thing from a churn to a farm, said: "It is an interesting sight to see this monthly gathering of the people from all parts of the county. It is keeping up the old time county court days that we read about but which, in my part of the State, have long since been abandoned. You might say that Frankfort, in retaining the custom is made the meeting point for a general exchange of goods, a kind of a monthly fair where every body keeps buying and selling from early morning until late in the evening. One man told me that while some very good horses, mules and cattle were often sold, there were certain old plugs which the owners made use of to trade around with each when business was slack merely to keep their hand in. He said that he had one old horse which he had tried to get rid of for the past five years, but that while he had sold him as many as twenty times in that period, he invariably turned up again and came back with such new tricks and designs that he would be deceived and buy him before he was aware of the identity. He said that the last time he sold the horse he went into the hands of a farmer in another county and he then congratulated himself that at last he would never return. On county court day last month, the closing transaction of the day just at dusk, was the old plug, which he recognized when he got home by his loss of two front teeth and the turning inwardly of his front hoofs. The farmer he understood to-day had disposed of the animal on his way home to a resident of this county. The man said that if the horse were a mascot he wouldn't object to his return to him, but he could not discover at the end of the year that he was any the gainer or loser by his monthly attendance here on county court days."

Mr. I. N. Williams brought his force of thirty-two laundry girls to this city from Lexington last week, and with them a great quantity of Lexington's soiled clothes to wash in the Kentucky river water. It occasioned

a great deal of comment at Lexington's expense, one man maintaining that it is a queer state of affairs that caused Lexington to come to Frankfort for water, and another that the reservoir was made to leak and run dry because the people couldn't get used to the taste of the water. Another said that if washing clothes was all the use they had for water, it verified the story told of a Kentucky Colonel who related his terrible experience of thirst on a fishing trip. He said he got lost in the woods and for three days not a drop passed his lips. When found he was unconscious on the bank of a stream. One listener asked if the stream was dry. The Colonel answered it was not, and then the listener said:

"Well, I don't see how you could suffer from thirst with a stream of water close at hand."

"Water close at hand?" reported the Colonel with scorn, "and what has water got to do with a man being thirsty?"

A friend said Tuesday: "Do you know, that contract Mason & Hoge, of this city, have with Chicago for the construction of the ship canal to bring vessels from the Mississippi river through the Illinois river over to the harbor at Chicago, is an immense undertaking. The contract is for six miles, at a million dollars a mile, and there are now no less than 2,000 men employed on the work. Sayre Rodman, of this city, has a splendid position with the company there, being their cashier and general business manager. A son of Mr. Mason is also engaged in the work and Mr. Ed. Grant, of this city, is a purchasing supply agent. I believe the Frankfort contingent in Chicago, which seems to be augmenting monthly, are all doing quite well."

### Siberia.

The Courier-Journal of Tuesday says:

Harris' Theater was comfortable filled last night to witness the first performance of "Siberia." The play, by a strong cast, will be on the boards for a week, with the usual matinees. "Siberia" has been played here so often that all theater-goers are familiar with it. The present company is a strong one, and bring out all the strong points in a play that is usually strong. The scenery is very fine. The company sustains the interest in the play from the opening scene in the Jewish quarter of Moscow to the denouement in the restaurant at the harbor of Odessa. Charles Brandt, as Nicola Niagoff, is a little weak in the part. This is not noticed, as the other actors and actresses fill their parts acceptably. Miss Esther Lyons makes a charming Sara. Dallas Taylor as Vera, the flower girl, and Gertrude Liddy, as Marie, her sister, were strong in their parts.

Siberia will be presented at the Opera House on Monday, evening next, December 19th.

### UNJUST RATES

To Frankfort Manufacturers by Railroad.

The manufacturers of this city complain that one of the railroads unjustly discriminates against them in the adjustment of the rates into and out of Frankfort. They say that in certain lines the schedule amounts to extortion as compared with other points that have no greater natural advantages and no more competition in transportation than this city. The tendency of such an injustice to the Frankfort manufacturers is to prevent those already here from thriving in their business, and to keep away others who may be looking for some good location at which to invest in manufacturing enterprises. Of course if the people quietly submit the railroad will never remedy the grievance, and the hope of the growth and prosperity of the city arising out of its manufactures will not have a basis of living inducements to rest upon. It has been suggested that some concerted action of the business men be made at once to take the matter into consideration and show to the railroad that they do not propose to sit quietly within a wall around the city and see their own manufacturers driven away for want of competing facilities, and others who might come take the warning and shun the place as they would the pestilential dangers of a charnel house.

The laws of health are taught in the schools; but not in a way to be of much practical benefit and are never illustrated by living examples, which in many cases might easily be done. If some scholar who has just contracted a cold was brought before the school so that all could hear the dry, loud cough and know its significance; see the thin white coating on the tongue, and later, as the cold developed, see the profuse watery expectoration and the thin watery discharge from the nose, not one of them would ever forget what the first symptoms of cold were. The scholar should then be given Chamberlain's Cough Remedy freely, that all might see that even a severe cold could be cured in one or two days, or at least greatly mitigated, when properly treated as soon as the first symptoms appear. This remedy is famous for its cures of coughs, colds and croup. It is made especially for these diseases and is the most prompt and most reliable medicine known for the purpose. 25 and 50 cent bottles for sale by J. W. Gayle, druggist.

#### LOCAL.

ADMINISTRATOR—Warren Clark was on Monday appointed by County Judge Williams the administrator of the estate of Elizabeth Tyra.

CARRYING MAIL—Mr. R. P. Thompson has purchased the contract from Mr. John Harrod of carrying the mail between this city and Shelbyville.

A NEW TRIAL—The Court of Appeals on Tuesday granted a new trial to Dr. J. L. Massie, of Owen county, who was sentenced to life imprisonment for the killing of Jesse Honaker and afterwards confined in the jail of this county to avert the dangers of a threatened lynching.

LADIES PARLOR—Miss Ida Symmes, of Louisville, one of the Lady Commissioners for the State at the World's Fair was in the city yesterday and explained her views at the Capital Hotel to a number of ladies of this city in reference to a movement among the ladies of the State

to furnish the parlor in the National Building at the World's Fair. The ladies present at the meeting were much interested and it is probable they heartily co-operate with Miss Symmes in her commendable efforts to furnish the Kentucky parlor.

FINE COLTS—Mr. J. D. Cromie went to Chicago last week in charge of a string of fifteen fine colts belonging to Mr. George Hays. Col. R. P. Pepper and Mr. R. C. Church also shipped a number at the same time, all of which were offered at the great sale in that city this week.

MASQUERADE HOP—The Knights and Ladies of Honor will give a masquerade hop at Weitzel's Hall, on the evening of Monday, January 2d, 1893. A large number of invitations have been issued and every preparation made to render the event enjoyable to all who attend. It will doubtless be a grand affair.

FOR SAFE KEEPING—Tom Fields, colored, of New Castle, who without provocation killed a colored woman on the streets of that town Saturday evening and whom a large crowd of his own race were about to mob Sunday, was brought to this city Tuesday and placed in Jailor Williams' custody for safe keeping.

INJURED BY SLIPPING—On Friday of last week; as Councilman-elect C. G. Furr, of the First Ward, was chasing a cow out of the lot inclosing the Heritage distillery, of which Mr. Furr is the Superintendent, he slipped and tore the leading muscles of the calf of his left leg and sustained such injuries as to oblige him to walk on crutches.

STATE NATIONAL BANK—The report of the condition of the State National Bank at its close of business on December 9 is a most complimentary showing for the bank management. On a capital stock of \$150,000 the report shows the surplus fund to be \$29,000 and the undivided profits \$18,985.70, or a total amount of net earnings of nearly thirty per cent. of the capital stock. Gen. Fayette Hewitt is the President and Mr. Charles E. Hoge the Cashier, and their names are a guarantee of a safe and sound administration of the bank's affairs.

JUDGE LINDSAY—The last issue of the Mt. Sterling Gazette says that Judge Wm. Lindsay, of this city, was in that city last week, and speaking of railroads, he said that he was much interested in the Kentucky Midland but could not say when it would be extended to Mt. Sterling, but that if it could be extended to that city, and their coal road pushed further into the mountains to connect with it, there would be no doubt of the advantages which Mt. Sterling would derive from it. Continuing, the Judge said: Railroad building in Kentucky at present is what you might call at a stand still. This is due to the fact that the Eastern capitalists are slow to take hold of Kentucky railroad bonds. Much of the lack of confidence was brought about by the recent troubles with the Kentucky Union railroad. If the finances of that road had been properly handled they could have had several miles more of road.

### OUTRAGIOUS CONDUCT.

The Noise and Crowding at the Church Wedding This Week.

The violation of the rules of decorum in any company or assemblage of the people, is enough to bring down upon the offender the frown of disapproval or sting of caustic censure, but when that violation occurs in the church which has been consecrated to the worship of God, and on an occasion of a wedding ceremony, at which none but friends of the contracting couple and well-behaved, respectable people were invited to be present, then nothing less than a policeman's club should be vigorously used in maintaining order. The conduct of many of those who were among the audience at the Willis-Stanton wedding Wednesday night cannot be too severely criticized. Such unrestrained talk and noise, which prevented many on the front pews from hearing the ministers' voice, would not be permissible even in a circus tent. It was disgraceful enough to show a want of consideration and respect for the family and friends and the church in which the worship of God is conducted, but to add to this the running, pushing and crowding of the audience in getting out so as to effectually block the doors and delay the wedding party in making their exit, was an outrage to a decent community which should have met a merited punishment at the hands of the law.

Hereafter couples who contemplate a church wedding, should not flate to secure the services of one policeman at the entrance and one within the church, to keep those away who may be disposed to be disorderly or have no business to be numbered among an interested and respectable audience.
